

fasttel®

FT25CC 7" or 10"

The 7" or 10" Touch Screen is a real multiple talent. Together with the Fasttel FT2100/ server, it can not only communicate with your Fasttel Wizard outdoor station, it even can control the home automation, multi-room audio, security systems and monitor your surveillance cameras.

The black wall bracket keeps the FT25CC fixed on the wall. For easy connection any empty electrical box should be installed in the wall to wind up the cat 5 cable and to hide the RJ45 connector..

FT25CC Display

Specifications

Operation system	Android 4.2.2
Display	7" /10" TFT LCD
Resolution	7" / 10" LCD(1024*600)
